"Waterfall"

Oooooooooo oooooooooo

Oooooooooo oooooooooo

[Verse 1]

Open up wide

I want to see what you got inside

Can u make it say ahhh

Turn on your side

And I'm a let your womb be my guide

I'm willing to try (will try)

How did it feel

So we can do whatever you like (whatever you like)

Just let me in

Girl you know what happens then

[Chorus]

Water fall come down

I want to make you come (ooooo)

I want to make it come down

Water fall come down (ooooo ooooo)

I want to make you come

I want to make it come down

[Verse 2]

I promise it won't hurt

Unless you make it hurt

So I'm going to put in work

To make sure you come first

Cause this going to be the greatest

I can already taste it

Sweet like momma's pastry

Be careful with the

Don't want to go too fast

Lets to make this moment last

My hands caress that ass

Almost too much to grab

Is it too much to ask

Right before I blast

And my love's all over these sheets

Girl I want you to rain on me

[Chorus 2x]

Water fall come down

I want to make you come (ooooo)

I want to make it come down

Water fall come down (ooooo ooooo)

I want to make you come

I want to make it come down

[Bridge]

Just like the ocean

Its overflowing

We'll just keep going

Just like the river

We going to keep splashing

There's so much passion

[Chorus]

Water fall come down

I'm going to make it come

I'm going to make it come down

Water fall come down (ooooo ooooo)

I'm going to make it come

I'm gonna I'm gonna

Waterfall come down (ohhhh yeah)

And don't worry about the mess

As long as there's happiness

Waterfall come down

I'm going to make it come down

[Bridge]

Just like (just like) the ocean (the ocean)

It's everflowing (it's everflowing)

We going keep going (we'll just keep going)

Just like (just like) the river (just like the river)

Said you know we going to keep pressing

Cause there is so much passion

Oooooo oooooo

Just let it rain let it rain let it rain let it rain let it down on
me girl

Oh girl

All I wanna do all I wanna do is make your water come
down
