Mama Africa is calling me
Africa is calling me
I go marching to Mama Africa

I'm gonna take a trip to the motherland
That's the place my ancestors come from
Take a trip to the motherland
To greet all my family from foundation
Take a trip to the motherland
To unite my people and make them strong
That's the place we all call home

I went to Africa, my friends and my family
The western hemisphere is love for me
I did my research and see for myself
And there I found the reality
Nobody can tell me nothing else
Cause I know where alive I'll be
Serengeti I'm coming over
Africa is calling me

Take a trip to the motherland
That's the place my ancestors come from
Take a trip to the motherland
To greet all my family from foundation
Take a trip to the motherland
To unite my people and make them strong
'Cause that's the place we all call home

I've been so many places, see many faces
Class and treat from different races
And everybody has as one blood
Come everyone get together shall wonder

It is vital in this time
Let's get together
Come on, one time
Africa is the umbrella
Come it will look from far we're gonna need her

Take a trip to the motherland

That's the place my ancestors come from
Take a trip to the motherland
To give love my family from foundation
Take a trip to the motherland
To unite my people and make them strong
'Cause that's the place we all call home

Mama Africa is calling me
Oh yes, she's calling me
I said she's calling me
Oh Lord, I can hear the voice, Lord
She's calling me

So I gotta take a trip to the motherland
That is where my ancestors come from
Take a trip to the motherland
To give love my family from foundation
Take a trip to the motherland
To unite my people and make them strong
'Cause that's the place we all call home

Take a trip to the motherland
That is where my ancestors come from
Take a trip to the motherland
To greet all my family from foundation
Take a trip to the motherland
To unite my people and make them strong
'Cause that's the place we all call home
