Whirling
Twirling
In between
You're blurring
Your words
And you're
And you're very complicated
Dream, I'm addicted to you
Whatever
Put you back where you belong
Dream
And you're very misleading
All your words are complicated
Turning around and in between
Whirling, twirling
Lines are gone
Find a place that you believe
Whatever
Whatever you mean
Turn
And you turn yourself around
Put you back where you belong
I'm addicted to you
All your words are complicated
Turning around and in between
Whirling, twirling
Lines are gone
Find a place that you believe
Complicated
Lines are gone
Complicated, in between
All your words are complicated
Turning round and in between
