I calibrate you  
Could get lost  
Along the way  
I confiscate you  
While i find the meaning  
I feel i could not escape you  
I feel i could not escape you  
Euphoria .  
Close to euphoria  
I could get lost  
Variations  
Come closing in  
Evaporating  
What i am  
Like a pin that pricks you  
And perforates you further  
Your simulations  
Could get lost along the way  
I could get lost  
Variations  
Come closing in  
Evaporating what i am  
Feel some kind of strange  
Open the doorway  
Love will find you  
Would you wait forever  
Love will find you  
Would you wait forever  
Variations  
Come closing in  
Evaporating  
What i am  
Feel some kind of strange
