"Like You Want To Believe"

Visit "[Like You Want To Believe](#)" on MotoLyrics.com

Caught up in circles tangled and blue all that you find
and all that you loose all that you give and all you
receive and all that you take and all that you leave
shouldn't treat me like a stranger like you want to
believe shouldn't treat me like a stranger like you want
to believe something you wish something you need all
that you want and all that you seek all that you take and
all that you steal all that you mask and all you reveal
psycho sematic auto erratic sooner or later micro
ecstatic auto erratic sooner or later shouldn't treat me
like a stranger like you want to believe shouldn't treat
me like a stranger like you want to believe and talk of
danger and tangled in there and wait much much later
and i keep but they call it real locked and you open
later locked in your atmosphere psycho sematic auto
erratic sooner or later micro ecstatic auto erratic
sooner or later caught up in circles tangled and blue
something you need someone you knew all that you
mask and all you reveal all that you give and all that
you steal something you wish something you need all
that you want all that you seek all that you take and all
that you steal all that you mask and all you reveal
