I see threes your tempting me what a deal you see your  
i see all what a deal lunacy in the yard who do you think  
you are i see all my increments in monochrome who  
decides the weeks spin by balancing the wheel curious  
send me a sign only us just passing through only us  
just passing through only love can reach the heart only  
love can tear apart only love can reach the heart only  
love can tear apart you lunacy in the yard who do you  
think you are i see all my increments in monochrome  
who decides the weeks spin by balancing the wheel  
increments in monochrome only us just passing  
through only us just passing through only love can  
reach the heart only love can tear apart only love can  
reach the heart only love can tear apart you only love  
can reach the heart only love can tear apart i see all my  
increments in monochrome i see all my increments in  
monochrome only love can reach the heart only love  
can tear apart i see all my increments in monochrome  
only love can reach the heart only love can tear apart
