Liquidized emotion water takes you in deep within the
ocean i could sleep for days hours only minutes
thoughts of imagery lure you from your spectrum solve
your misconceptions you and me under the ocean
eternally deep in the ocean you and me equalize and
daemonize performing of a ritual got to find the center
meaning or your purpose i could sleep for hours only
minutes only days underneath beneath the waves
liquid and intangible you and me under the ocean
eternally deep in the ocean you and me deep within the
ocean feel so disconnected spiraling for messages i
could sleep for days hours only minutes tangible
specific you and me under the ocean eternally deep in
the ocean you and me you and me under the ocean
eternally deep in the ocean you and me liquidized
emotion thoughts of imagery performing of a ritual got
to find the center equalize and demonize i could sleep
for minutes i could sleep for minutes only hours only
days feel so disconnected spiraling for messages
deep within the ocean deep within the ocean i could
sleep for minutes i could sleep for minutes feel so
disconnected
