The surface is transparent
Stranger here in me
Filter through like sun
Future i am past
Though your hunger feels the same
I am wanting give me breath
I am truth you can't explain
I am treasure i am dust
I am water i am rain
I am tempted here
I am the hunter i am the prey
Though you're ten thousand years
Every moment remains
I am future i am past
I am haunted i am blessed
And i'm filtered through like sun
Until the moment comes undone
I am hunter i am prey
I am water i am rain
Some light some rain flows through me
Some light some rain flows through me
I am tempted here
I am the hunter i am the prey
Though your ten thousand years
Every moment remains
I am tempted here
I am the hunter i am the prey
Though your ten thousand years
Every moment remains
Lies the night conscious one
I am earth i am water i am ground
I am wanting give me breath
It's all transparent
I am the stranger here
It's all transparent
Just the same as fiction
And the truth you can't explain
Though your hunger feels the same
I am wanting give me
Some light, some rain flows through me
Some light, some rain flows through me
I am tempted in here i am the hunter i am the prey

Though those ten thousand years
Every moment goes astray
Give me breath
