(Hook)

my life moves at the speed of the light  
my life, I'm in the fight of my life for all of my  
life  
my life is in the limelight, my life here is finite  
so gather round tonight and take a look at my life

verse 1:

I live the high life with lowlives who want life to go  
right/  
they blow like amateurs while I'm a professional who's  
pro-life/  
in rap olympics Moabites hold records against physics/  
and make my words a guillotine so that heads can roll  
with it/  
no limit to the breath that i breathe and this life  
that i lead/  
might just touch enough minds with rhymes, develop  
thousand lifetimes/  
bring sentences to life while you serve this life  
sentence/  
just a slave to every hour, counting seconds by the  
minute/  
me, I start where many finish, and my life to me is  
endless/  
trip towards the infinite coz life to me's a  
pilgrimage/  
skywalk like phantom menace, against all odds like  
Jeff Bridges/  
to live life first 'til second coming, hype verses/  
verse words written down, world wishin' I might curse/  
but my heart beats to the stroke of my pen and I'd die  
first/  
flirt with disaster and transfer life lessons on wax /  
and make a soundtrack for life with every track/

my life moves at the speed of the light  
my life, I'm in the fight of my life for all of my  
life  
no money, broke life, breain' life down to a science  
(my life might be a tragedy, my life will be a  
triumph)

verse 2:

I got my mind on my money and my money in the next  
man's bank account/  
put my hand to the plow, close my mouth, and just say
