(m. crenshaw)

I'm feelin' dazed and dissipated  
I only know one thing for sure  
Gotta find me a brand new lover  
There isn't any other cure

All my lowdown lonely feelings  
Have been working overtime somehow  
Gotta find me a brand new lover  
I know it better be right now  
Right now, right now, right now now, right now

I've got to make some changes  
Before the walls close in  
I tell you what I'm gonna do  
When the night comes down babe I'm lookin' for you

I need some consolation  
Baby come and take my hand  
Gotta find me a brand new lover

I'm achin' more than I can stand

All my lowdown lonely feelings  
Have been working overtime somehow  
Gotta find me a brand new lover  
I know it better be right now  
Right now, right now, right now now, right now

I've got to make some changes  
Before the walls close in  
I tell you what I'm gonna do  
When the night comes down babe I'm lookin' for you

I'm dazed and dissipated  
I only know one thing for sure  
Gotta find me a brand new lover  
There isn't any other cure
