Only a month gone by
Now, and rumors start to fly
Well, I heard your name
And I felt so defenseless

Now, we're one on one
In the light of the setting sun
You say it was nothing that I'd done
You were just restless

Tell me all about it
Did you grab somebody new?
Tell me all about it
Does he love you better than I do?

It's all a little clouded
And this just came right out of the blue
On second thought, maybe, I don't want you
To tell me all about it

Tangled hands and feet
All the words you whispered sweet
It's all coming back, now, incomplete
Did you just fake it?

Now, I do believe
That it's just like Adam learned with Eve
People can hide things up their sleeve
Even when naked

Oh, tell me all about it
Have you got somebody new?
Tell me all about it
Does he love you like I do?

It's all a little clouded
And this just came right out of the blue
On second thought, maybe, I don't want you
To tell me all about it

My mind's in an uproar
I don't know what to do or say

Been just like this all day
Yeah, I left myself wide open
I can't believe that it's gone this way

Now, I do believe
That it's just like Adam learned with Eve
People can hide things up their sleeve
Even when naked

Well, tell me all about it
Have you got somebody new?
Tell me all about it
Does he love you like I do?

It's all a little clouded
And this just came right out of the blue
On second thought, maybe, I don't want you
To tell me all about it

Tell me all about it
Tell me all about it
