Last night I tried so hard to sleep  
I counted half a million sheep  
And my whole life passed right before my eyes  
I pondered on the universe  
It only went from bad to worse  
And I wondered what would happen if I died  
I think I've been thinking way too much  
I say it's a perfect time for us, to

Live it up  
There ain't no time to waste no time  
And there ain't no better time to celebrate  
Hurry up, oh can't you feel the urgency  
There ain't nothing we can do when it's too late  
And too late's gonna catch us soon enough  
So let's live it up

Old Man Jones with all he knows  
You never see him smile  
You know he's sittin' on that big portfolio  
It's clear that all that's on his mind  
Is the top of the ladder and the bottom line  
But he can take it with him when he goes  
Poor old Jones he never learned to dance  
I bet he'd trade it all for one more chance to

Live it up  
There ain't no time to waste no time  
And there ain't no better time to celebrate  
Hurry up, oh can't you feel the urgency  
There ain't nothing we can do when it's too late  
And too late's gonna catch us soon enough  
So let's live it up

Sand keeps slipping through the hour glass  
Everyday's more precious than the last, so

Live it up  
There ain't no time to waste no time  
And there ain't no better time to celebrate  
Hurry up, yeah life is an emergency  
There ain't nothing we can do when it's too late

And too late's gonna catch us soon enough  
So let's live it up

Live it up  
There ain't no time to waste no time  
And there ain't no better time to celebrate  
Hurry up, oh can't you feel the urgency  
There ain't nothing we can do when it's too late  
And too late's gonna catch us soon enough  
So let's live it up
