What would he do now  
How could he change it  
Deception is futile  
Humanity blames him  
We need to look around  
Why can't we see, good god  
March of history is here  
Is near  
March of history  
Is Hear  
Political empire  
Can nobody change it  
Adversaries conspire  
Assassinate him  
We need to look around  
Why can't we see, good god  
March of history is here  
Is near  
March of history  
Is Hear
