"Swarm"

Visit "[Swarm](#)" on MotoLyrics.com

Descending the armies grow

Never relenting as they go

Legions gathered waiting for the cry

Dogs of war will intensify

All I see is the enemy

All I fear is the end for me

Invasion to occupy

Say your prayers now testify

Fate has deemed this victory

Though destiny reveals defeat

The swarm

Defeated in the Leipzig war

Crushed were those within the swarm

Thousands slaughtered human waste

Ending the line of fate
