My glass is empty, but innocently  
Just sittin here thinkin how much you mean to me  
Thought about leavin, but you know you're one of a  
kind  
And even though we tried it all  
I'd like to try it more time..

Said tonight at the party, you wore your finest dress  
You walked around in style lookin so much finer than  
the rest  
And when you walked up to me, Lord  
You know I was so proud  
And even though we tried it all  
I'd like to try it more time..

As I look at your picture, my mind searches the past  
Love such as ours, I know is gonna last..

Guess I'll get in the car and drive on home  
I hate the thought of you bein there, without me, all  
alone  
And when I walk to the door, your sweet body touches  
mine  
I'll say "Honey even though we tried it all  
Let's try it one more time"
