It's that feeling that someone
Is standing behind me
And I turn around
And there's no one there
And it's the sensation
That someone just whispered
Yeah, I still hear your voice
But you're not really here
Your memory's like a ghost
And my heart is its host

Chorus:

I can still feel you just as close as skin
Every now and then
All by myself
In a crowded room
Or my empty bed
There's a place you've touched
With your love
No one gets close to

I can still feel you
I can still feel you
I can still feel you
I can still feel you

Chorus

You said you'd love me forever
Then you said, It's over
And left me without the missing link
I thought I'd forget you
But I guess I forgot to
And lately I've been too confused to think
When I reach for someone new
It's like I'm touching you

In everything that moves
In everything I do

Chorus

Oh, I can still feel you
Yeah...
