There are days
When the cage
Doesn't seem
To open
Very wide at all
There are others
That would shock
The most
Indiscriminate
Lovers of all

My heart
Was made
For bleeding
All over you

You got
A girlfriend
And I can only
Talk about her
For so very long
Then my mind turns
Into my heart
And whispers
Into that dark cave
That I've been wrong

My heart was made
For bleeding
All over you
And I know
You're married
But I've got
Feelings too
And I still
Love you

You moved up North
You've got a farmhouse
There's cowshit
In your brain

And love in your heart
I'm in the city
And I'm trapped
Between two buildings
And having to start
At the start

You've got a daughter
Now you're a father
You have your pack
And they are wild

My heart was made
For bleeding
All over you
And I know
You're married
But I've got
Feelings too
And I still
Love you
I still love you

Na, na, na
Na, na, na

I've got
Feelings too
And I still
Love you
Yes
I still love you
