Wooo, here we go The table's set baby  
Wooo, ahh here we go  
My oven is hot

Come on get some, in Martika's kitchen baby  
You bring the noise and I'll bring the smile  
It's been so long since you've been down in the kitchen  
baby  
My desire's running longer than a country mile

So true, you can make all my wishes  
So real, you can make all my dreams  
And if you're good baby,  
I'll even let you break the dishes  
Come on get some, get some, get some  
In Martika's kitchen baby  
Ooh we're talkin' about the kitchen

Don't you just love spring time in the city  
Ba-Ba-Boom box  
Kick-kick-kickin' out the latest jams  
Boys dancin for all the girls lookin so pretty  
Love is in the air Inhibitions be damned

So true, you can make all my wishes  
So real, you can make all my dreams  
And if you're good baby,  
I'll even let you break the dishes  
Come on get some, get some, get some  
In Martika's kitchen baby  
Ooh we're talkin' about the kitchen

The table is set  
The oven is hot  
Baby when we get started  
We won't e-e-ever stop  
Come on, get some  
Get, get, get some  
You can make all my wishes  
Come on baby let me hear you say you're with it  
Come on sweetie if you're good

I'll let you get it  
I don't care, I've got the chair  
If you think your butt'll fit it  
You turn me all the way up, I admit it

Come on get some In Martika's kitchen baby  
You bring the noise and I'll bring the smile  
It's been so long since you've been down to the kitchen  
baby  
My desire's ru-ah-ah-ning longer than a country mile  
So T-R-U-E true

The table is set The oven is hot  
Baby when we get started we wo-o-on't ever stop

Come on get some in Martika's kitchen baby  
You bring the noise and I'll bring the smile  
So true, you can make all my wishes  
So real, you can make all my dreams

And if you're good baby,  
I'll even let you break the dishes  
I'll even let you break the dishes  
Come on get some, get some, get some  
In Martika's kitchen baby

You can make all my wishes  
The kitchen baby  
You can make all my dreams  
The kitchen baby  
I'll even let you break the dishes  
Martika's kitchen baby  
Get some, get some, get some  
In Martika's kitchen baby  
In Martika's kitchen baby
