Sad girlfriend
why do you weep?
sad girlfriend
my face in your black hair
sad girlfriend
your room is full of remotes control

when the phones rings
who would you most like it to be?
when the phone rings
who would i most like it to be?
things really ahh just mean one thing

sad girlfriend we should be home by now
sad girlfriend where do we go from here?

when the phones rings
who would you most like it to be?
when the phone rings
who would i most like it to be?
things really ahh just mean one thing

I wish i was a black belt in something
I wish you were a black belt in something
to fight this feeling

when the phones rings
who would you most like it to be?
when the phone rings
who would i most like it to be?
things really ahh just mean one thing
