"She can lean on me"

Visit "[She can lean on me](#)" on MotoLyrics.com

She,
She may be tender
She may be weak
But in my arms
She can be free
Free of all worry
Released from her pain
She need not suffer
She can lean on me
She can call my name
We can share in the darkness
By the heat of the flame
She can lean on me
I can call her name
We can share in the darkness
Now I'm not to blame

She,
She may be tender
She may be hurt
Life has a habit
Of helping us learn
Learn from our troubles
And take what we will
We must remember

She can lean on me

She may remember
That love can be cold
Love is no story
That hasn't been told
Keep it so simple
Keep love so sweet
She may be tender
And our love will keep

She can lean on me
