Like water you see into me
You reach into me and I ripple round in circles
Reflections of my dreams in yours
Bring me to the shores of desire

I have been like a desert creature
Wandering on this earth so cracked and dry
But now your love is bringing me alive

Like water, how could I do without you?
My body heat will not cool down
Like water, I could not live without you
I want to dive so deep into you, I might drown

Tu eres como el agua

You know me, an invisible line connects us in time
And now there is no distance between us
You see what I feel
And all I am feeling is you

Like water, how could I do without you?
My body heat will not cool down
Like water, I could not live without you
I want to dive so deep into you, I might drown

Tu eres como el agua
No se que haria sin ti mi amor
Yo no pudiera vivir sin ti

Quiero ahogarme en ti y nunca
Regresar

Como el agua me ves tan clara
Siempre puedes tu llegar a mi
Tu amor me da razon para vivir

Like water, how could I do without you?
My body heat will not cool down
Like water, I could not live without you
I want to dive so deep into you, I might drown

Like water
Like water
Like water
Nana nana na
Like water
Like water
Dive so deep into you, I might drown

Like water
Like water
