I got no bag
I got no money
I've got a star
To take me home
Along the rainbow
Across the mountain
To the place
I belong

I've got no dog
I've got no friends
I've got a star
To take me home
In the sunlight
In the moonlight
To the place I belong

I am walking down
The highway
I've got a dream
To take me home
Along the river
Across the valley
To the place
I belong

I've got no bag
I've got no money
I've got a star
To take me home
Along the railroad
Across the mountain
To the place I belong

I've got no dog
I've got no friends
I've got no dog
I've got no friends
I've got a star
To take me home
In the sunlight
In the moonlight

To the place
I belong

I am walking down
The highway
I've got a dream
To take me home
Along the river
Across the valley
To the place
I belong

I am walking down
The highway
I've got a dream
To take me home
Along the river
Across the valley
To the place
I belong

I am walking down
The highway
I've got a dream
To take me home
Along the river
Across the valley...
