mm-hm  
aah yeah  
mm-hm

it was a different face and a different smile then  
in a lover's land where lovers kiss, mm  
it was another place and another time then  
but the same old plans and promises

somewhere I don't know where  
there's a place for lost time  
I know I shouldn't go there but I

I wanna be where fools rush in  
I wanna fall in love again  
I wanna go back to the place where I believe in lost  
words  
I wanna lay my soul bare  
knowing it leads to nowhere  
and when it's over will there be a next chance, be a  
next chance

mm-hm..

looking back to where the end of time ends  
never knowing what was really there, mm  
where every end is like a blast of silence (yes it is)  
that's defeating me from there to here

sometime I don't know when  
I will claim what is mine  
and I won't be denied when I say

I wanna be where fools rush in  
I wanna fall in love again  
I wanna run back to the place where I believe in lost  
words  
I wanna lay my soul bare  
knowing it leads to nowhere  
and when it's over will there be a next chance, be a  
next chance

mm-hm

though love is lonely  
I'm a fool on lover's lane  
though it's hurtin' me so bad, only  
here will I be safe (hey)

I wanna be where fools rush in  
I wanna fall in love again  
I wanna go back to the place where I believe in lost  
words  
I wanna lay my soul bare  
knowing it leads to nowhere  
and when it's over will there be a next chance (the next  
chance)  
be a next chance

I wanna be where fools rush in  
I wanna fall in love again  
I wanna run back to the place where I believe in lost  
words  
I wanna lay my soul bare  
knowing it leads to nowhere  
and when it's all over will there be a next chance (the  
next chance)  
be a next chance

mm, give me one more chance  
oh yes, one more chance  
mm.. give me, give me hm-mm...

[piano solo]

I wanna sing a song about pride  
I wanna sing a song about pride  
I wanna sing a song about pride, hey  
I wanna sing a song about pride  
I wanna sing a song about pride  
I wanna sing a song about pride  
I wanna sing a song about pride, hey  
I wanna sing a song about pride  
I wanna sing a song about pride
