Now I'm defeated
Broken are my wings
Kneeling is my soul
I cry tears of blood

Close in cosmic void
I can feel my hate grow
Down in fire and ice
Only up again

I will fly so higher
'till touch the stars

Wounded is my body
Scar is my soul
But stronger is my spirit
I will rise again

I'll gaze into space now
'till take the stars

The Almighty has broken our wings
And destroyed our shields,
But we are not completely defeat:
We'll rise, shoulder swords against his angel
And will have our Kingdom in the Heaven
And our freedom as the stars in sky.

Better to reign in Hell than serve in Heaven"

In Cosmic Void I lie"

I'll have my vengeance
I'll defeat God
I'll will rise up on His Throne
And I'll hold His old Kingdom

As Demon in Hell and Angel in Heaven
I'll hold my reign in peace or blood:
Fight for me brothers, together we will win
A new order will come,
With our victory.

Total war for reign
Total war for peace

Down in fire I descend
And up in sky I take my soul:
My spirit fly over snow-covered plain
And on shining landscape

Is the time for all mankind to rise and fight this war"

But my soul is tremble
In front of might of God,
Weak appear my spirit
Beneath Universal Force.
I won't fall in darkness
But never I'll may win.
I couldn't surrender
And so I have fought"

Close in cosmic void
I can feel my hate grow
Down in fire and ice
Only up again

I will fly so higher
'till touch the stars

Wounded is my body
Scar is my soul
But stronger is my spirit
I will rise again

I'll gaze into space now
'till take the stars

I must fight against His sons
And I had to fall: war will be done
Sacrifice my soul to evil forces
Take their powers
We'll become stronger,
We'll destroy our enemies:
We'll make a desert called peace.
Our swords will call their names,
This will be our Hell"
