Genelec
Memphis Reigns...
Clarity of a Terrorist.
Presidential.

Genelec:

I exist as an independent entity, governments possess
no knowledge of this identity
Operation Power Chancer
Under investigation for the distribution of treasonous
propaganda
By Nary 80 and Steel Panther
Seven continents my feet have roamed
Instantly command everyone of them, overthrow
Rebel activity's unknown, during massive electricity
overload
I snuck into the hanger to download various march
codes
Two weeks later the challenger exposed
You didn't know about the NATO senate chamber?
I rearranged the data on the motherfuckin label
translaters
Chaos creator, trained in criminology, geology and
neural psychology
Interceptin' chinese technologies to leave Russian
satellites blocked
Penetrated fort knox like it was guarded by luggage
mocks
Then target the leaders in North Korea
Took the fuckin twilight camp to the Mona Lisa
Abused for World War III, proceed to sparkin'
Crashing American Stock Markets
Leave the whole world in disarray
By sending virus form: The Y2K

Djing

Memphis Reigns:

Yo, I dont quit when im ahead

Stop when I say so, crews who get their peace like kids
who're playing lego's
Super Agents who fly skys i play the lay low
Wanted internationally like Carmon SanDiego.
Master of disguise change face at any pace
Rendevouz at any place, no existence of my state
Renegades are paged crew stations and databases
Mortal hostile surrender are more than navy bases
United Nations know solutions to the infiltrations
Wanted by the Federal Bureau, of Investigation
Patient with the force proceed i sign and crush ya
Advanced technological armor stolen from Russia
Super diabolical seeds a planet needs mutated by
scientific labs and Japanese..
For the purpose: Undercover, no sight of what im
seeing
X-files delete, for the defeating of European's
Identity erased
Unknown discovered weaponry
Blowin' up the SPOTS like heads on John Kennedy....

airplane engine
