I've got pain in my body
But I'm sure it will pass
I've got pain in my body
But I'm sure it will pass

Now, my father died of a deadly disease
And my mother died of a deadly disease

I've got pain in my body
But I'm sure it will pass I've got pain in my body
I don't need any doctor, no
I've got pain in my body
I don't need any healer

Now, my sister died of a deadly disease
And my brother died of a deadly disease

I've got pain in my body
But I'm sure it will pass
But I'm sure it will pass at last
