"Black Sheep"

Sittin' in this lonely town
Wonderin' when things are gonna change
Dreamin' my life away and it seems them dreams
They turned into a bunch of dust clouds

Gettin' my nerve up
But my past is pullin' me down
Wonderin' how long
This black sheep can, can stick around

Somebody told me once before
You can never go home again once you leave
Say anything just to steer me away
From the truth of what I who I am and what I believe

So I thanked him for his two cents
With a shake and some sympathy
And I packed up my blue jeans
And I headed for the big prize of my freedom

So bye bye black sheep of the family
Bye bye black sheep how that means so much to me
Bye bye to my friends and to my family
Bye bye black sheep goin' off and set my soul, set it
free, free

Times they were changin' I did just a little re-arrangin'
Take a couple chances my progress it advances
To that prize of my freedom, yeah

And it's written in the stars
Steel bars never will a prison cell make
Once I find that sweet home
Or some place I like to call home anyway

Some people will say I'm crazy
Singin' out loud like I do here on the street
When I got a song I'll sing it out loud
And if you don't like that my friend, well I'm gonna say

Bye bye black sheep, black sheep of the family
Bye bye goodbye to my friends

And black sheep you know you always means so much
to me
Bye bye to my friends and you been my family
Bye bye black sheep goin' off and set my soul, set it
free, free
