Haou! Haou!
I had to see the light that attracts me.
Boy that's alright, you can play with me.
Come real close but never hold me.
I'm really quelque chose for those you wanna see.

I'm a butterfly that keeps on moving
With this appetite, I keep on dancing.
You had a hard day, just give up the fight.
Now it's on the play, let's dance all night.

Is there something you can do for me, for me, for me?
Is there something you can do for me, haou!
Is there something you can do for me, for me, for me,
for me?
Is there something you can do for me? Let yourself
free.

There's nothing logical in the contact
It's unilateral but you can live with that.
I could be out of reach, now I'm in front of you.
Forget about the speech, show me what you can do.

I'm a butterfly, life's running in my veins.
Boy you'd better fly, improvise to do the same.
I'm a butterfly, oh hysterical, if you wanna lie,
something rational.

Is there something you can do for me, for me, for me?
Is there something you can do for me, for me, for me?
Is there something you can do for me, for me, for me?
Is there something you can do for me? Let yourself
free.
Butterfly, butterfly. Haou! Butterfly, butterfly.

(Instrumental)

Butterfly! Haou! Haou! Butterfly! Haou! Hou! Butterfly!
Butterfly!
Butterfly! Haou! Butterfly! Butterfly!
