Ho, time is going on, wait for no one, yeah.
Makes me realise I have to carry on.
I might be wrong, but I think about it.
I feel so strong, I'm so ahead.

I can make it, destiny, I know, take a good direction.
You gonna hurt, trust me, I can make it, destiny.

Hmmm, ain't nobody gonna make me turn around, no!
Ho, time flies, waits for no one, hmm hmm.
Makes me realise I have to carry on, yeah.
Don't wanna wait & see, the answers are all up to me.
This is the right time, I know yeah, to make it real &
raise me, destiny.

I can make it, destiny, I know, take a good direction.
You gonna hurt, trust me, I can make it, destiny.
I can make it (I can make it) destiny, I know, make the
right decisions.
You have to trust me, I would make it, destiny.

Destiny, destiny. Oh destiny, destiny.

I can make it, destiny, I know, take a good direction.
You gonna hurt, trust me, I can make it, destiny.
I got to make it, destiny, I know, take a good direction, I
got to make it.
You gonna hurt, trust me, I can make it, destiny.
I can make it (hey), destiny, I know, take a good
direction.
(Don't let nobody turn around)
You gonna hurt, trust me (hey), I can make it, destiny.
Take your need, ah.
