Ooh, my darling, I'm thinking about how my life has
changed, me and you

Our passion, sensation, feels like I'm a different man
now.

Ooh, so strong for too long, I've been searching for a
girl like

You change it all since I found you, really made it
better.

I've run for something better, I've dreamt of something
better

I run for something better, you're something better for
me.

I've run for something better, I've dreamt of something
better

I run for something better, you're something better for
me.

Something better, something better for me.

Now I'm caught up, so tied up

But don't be a player babe or I could wait for

More, more action, I'm checking your reaction

Cause I wanna do it and I want you to be happy with it.

I don't care, it sounds fair to flee dismal reality 'cause

You change it all since I found you, really made it
better.

I've run for something better, I've dreamt of something
better

(You made it better, you made it better)

I run for something better, you're something better for
me. (Oooh)

I've run for something better, I've dreamt of something
better

(You made it better, you made it better)

I run for something better, you're something better for
me. (Hey hey)

Darling I've been waiting all my life and I'm so glad that
I found you (Oh)

You and I connect without a doubt, I'm so thankful for
having you

(I'm thankful, thankful)
Darling I've been waiting all my life and I'm so glad that
I found you
(So glad that I found you)
You and I connect without a doubt, I'm so thankful for
having you
(You're something better, I'm thankful, thankful)
Darling I've been waiting all my life and I'm so glad that
I found you
(You're better for me, you're better for me, you're
better for me)
You and I connect without a doubt, I'm so thankful for
having you
(You're better for me, you're better for me, ooh ahh)

You're something better for me
'Cause I've run for something better, 'cause I dreamt of
something better
You're something better for me
I've run for something better, I've dreamt of something
better
You're something better for me
I found something better cause you
You're something better for me, you're something
better for me
You're something better for me, you're something
better for me
You're something better for me, you're something
better for me.
