I sent myself a dozen roses  
Right before the office closes  
Just to make my girlfriends green with envy  
Ever since I lost you  
All the crazy things I do  
I didn't even know I had it in me...oh but

Hey, it's all right  
It's just another Saturday night  
Got nobody...got no nothin' to lose  
I'm gonna get dressed up and go downtown  
Spread a little misery around  
Anything's better than feelin' the blues

Found a restaurant on my way  
I told 'em it was my birthday  
Just to hear the waiters sing off-key  
I've sprung a loose wire that's a fact  
Got a strange little monkey on my back

But I kinda like the company...and I guess

Hey, it's all right  
It's just another Saturday night  
Got nobody...got no nothin' to lose  
I'm gonna get dressed up and go downtown  
Dance the little monkey around  
Anything's better than feelin' the blues

Hey, it's alright  
It's just another Saturday night  
Got nobody...got no nothin' to lose  
I'm gonna get dressed up and go down town  
Live it up and never live it down  
Anything's better than feelin' the blues  
Anything's better than feelin' the blues
