It's a big world to walk through, honey  
And if you got love, you don't need money  
You're gonna get caught in the toughest times  
You hold each other and you hold a life  
You kiss on the mornings when the sun won't shine  
And that don't cost a dime

It's a big world to walk through, honey  
If you got love, you don't need money  
You can't get lost in the dollar signs  
You take each night one day at a time  
You live on water until it turns into wine  
And that don't cost a dime  
Come out of bed and step outside  
Look up ahead it's all blue sky  
You already have what really matters  
Most in this life

It's a big world to walk through, honey  
If you got love, you don't need money  
You're gonna get caught in the toughest times  
You hold each other and you hold a life  
For what it's worth there's my advice  
And that don't cost a dime

(Don't cost a dime)  
And that don't cost a dime  
(Don't cost a dime)  
Yeah, love don't cost a dime  
(Don't cost a dime)  
Yeah, yeah
