(carol chase/kathy louvin)

I'm so blue  
Lonely for you  
What makes you treat me the way that you do  
I've been true  
Only to you  
Just call me your true blue fool

Every day you're away lasts forever  
Oh what price my heart pays just to stay together

I'm so blue  
Lonely for you  
What makes you treat me the way that you do  
I've been true  
Only to you  
Just call me your true blue fool

First you lie, then I cry, then you're sorry  
I forgive once again, it's just the same old story

I'm so blue  
Lonely for you  
What makes you treat me the way that you do  
I've been true  
Only to you  
Just call me your true blue fool

Just call me your true blue fool
