I wonder where your heart is  
Cause it sure don't feel like it's here  
Sometimes I think you wish  
That I would just disappear  
Have I got it all wrong  
Have you felt this way long  
Are you already gone

Do you feel lonely  
When you're here by my side  
Does the sound of freedom  
Echo in your mind  
Do you wish you were by yourself  
Or that I was someone else  
Anyone else

Where would you be  
If you weren't here with me  
Where would you go  
If you were single and free  
Who would you love  
Would it be me  
Where would you be

I don't wanna hold you back  
No I don't wanna slow you down

I don't wanna make you feel  
Like you are tied up and bound  
'Cause that's not what love's about  
If there's no chance we can work it out  
Tell me now  
Oh, tell me tell me now

Where would you be  
If you weren't here with me  
Where would you go  
If you were single and free  
Who would you love  
Would it be me  
Where would you be

Have I become the enemy  
Is it hard to be yourself  
In my company

Where would you be  
If you weren't here with me  
Where would you go  
If you were single and free  
Who would you love  
Would it be me  
Where would you be
