I'm gonna make the whole world do it  
I'm hustlin' and take 'em by the heart  
Won't suffer  
Not even for one night  
You know there's no reason for alarm  
Never to late, the sun don't love the day  
And I'm not here just to play

No, no, no

You try to make the whole world do it  
You hustlin' and take 'em by the arm  
Don't suffer for the light  
You know there's no reason for alarm

Never to late  
I'm not here for to play

No, no, no
