Just the memory of you  
It feels like poison  
Still the memory of you  
It feels like poison  
It kills like poison

Why you do the things you do?  
It feels like poison  
I can only love you  
It feels like poison

If not for you  
No love in front of me  
Nobody told you  
It's not how it's supposed to be

Make a wish and blow it out  
Love will begin again  
I don't want to be a clown  
The whole town is laughing  
Behind my back, you're supposed to be a friend

If not for you  
No love in front of me  
Nobody told you  
It's not how it's supposed to be

Nobody told you  
Nobody told you  
Nobody told you
