Somebody saw you on fire
These are the days of a gun
Nobody'd say you won't try it
You are the sword I'm falling on

Your not solid for no reason
What say you see them falling down dead
How do you stay a lover inside?
How do you stay a lover inside?

Somebody saw you on fire
These are the days of a gun
Nobody'd say you won't try it
You are the sword I'm falling on

Don't say there's no challenge

What sort of thing are we starting?

Who are you when you're not what you fear
What say you see them falling down dead

How do you stay a lover inside?
How do you stay a lover inside?

Learning blood
Long as your heart don't have to share
All turned on
To reach the wounded sounded fair
Handcuff a tongue
I can't believe it's so unfair

Some day
Some day
