Smoke-filled rooms with an amber glow  
Whispers in your ear while you're movin' slow  
Shadows dance all across the wall  
Reflections are the revival

(You can't stop when the music's on your mind)  
Feel so alive

The Revival

Friends you may have  
Friends you may lose  
Helps a broken heart to get over the blow  
Time will heal  
Time will tell  
Good times you call them the revival

(You can't stop when the music's on your mind)

Feel so alive

Open your heart  
Let the music in  
Don't take no time and you'll soon begin  
Close your eyes when you start to fall  
Listenin' to the revival

Feel the music  
Feel the music  
Feel the music  
Feel the music

(Fade out)
