Flowers, they don't always bloom  
And even when they do they're not meant to last  
forever  
Love can turn out any time  
The good and bad, the wrong and right  
Find a way to come together  
'Cause I've got you to pull me through another day  
And you've got me together we will run away  
'Cause I've got you, whocares what anyone may say  
I know I'm gonna find my way, 'cause I found you  
I found you  
They say that we're too young  
Too young we've just begun  
To realise what we've been given  
Take our chances as they come  
Don't look back at what's been done  
Pass the road that we have driven  
'Cause I've got you to pull me through another day  
And you've got me together we will run away

'Cause I've got you, who cares what anyone may say  
I know I'm gonna find my way, 'cause I found you (you)  
Found you  
Found you  
If I have you I've got everything  
If I've got you I've got the moon, the stars, the sun  
What more could I want?  
What more could I want?  
'Cause I've got you to pull me through another day  
And you've got me together we will run away  
'Cause I've got you, who cares what anyone may say  
I know I'm gonna find my way, 'cause I found you (you)  
I found you  
You  
Found you
