

Martini Ranch "Power Tool"

Visit "[Power Tool](#)" on MotoLyrics.com

Kinda wonder what this place was like
When dinosaurs were king
Didn't need no credit cards
Didn't need no diamond rings
Put your ear down to the ground
The pterodactyl screams
One million years going round and round
Wake up it's no dream
Power tool...build a bomb
Power tool...power...power
Power tool in the hands of power fools
Visitors from outer space
Would think it rather sad
To see how we the human race
Have let the world go mad (go mad...hush)

Stop and listen there's a sound out there
Goin' through the land
Is is music of the spheres, my lord
Or a planet turned to sand
Power tool...build a bomb
Power tool...power...power
Power tool, make that sale
Power fool, kill the whale
Power tool...build a bomb
Power tool...power...power
Power tool in the hands of power fools
(The poodle's in the car.... :)
