(No good!)  
Brother lashing out at brother  
Mother, you don't want to hear it  
Father says keep him in the closet  
Sister, go and have a baby  
Brother take it out on brother  
Sister take it out, take it out on sister  
Father take it out on lovers  
Mother, father, take it out  
Brother, you must live your own life  
Mother, quit pretending you're a housewife  
Father, take a good look in the mirror  
Sister, you're not your brother's keeper  
Brother take it out on brother  
Sister take it out, take it out on sister  
Father take it out on lovers  
Mother, father, take it out
