This must be fate  
Like on the movie screens  
It's the first time for all  
Is this really what I need?  
Come back to me  
You belong here  
All the gods of this age  
Will become enraged  
If you are not by my side  
Give me time  
Give me your life  
Ill give you mine  
Two lovers entwined  
This is fate  
It has to happen  
Its bound to be  
I know you're not free  
But fate can't be too late  
Give me time  
Give me your life  
Ill give you mine  
Two lovers entwined
