I'm losing you I know it hurts to let you go
But I must set you free and how it tortures me
Another's on your mind I feel it all the time
But darling can't you see how it tortures me
It tortures me to know the love we had has died
It breaks my heart to think you'll soon be by his side
Can't you see it tortures me it tortures me
[guitar]
It tortures me to know to know another's on your mind
It breaks my heart to think he'll soon be by your side
Can't you see it tortures me
More and more each day I feel you slip away
I must set you free and how it tortures me
How it tortures me oh how it tortures me
