The song that brought us both together
Is slowly breaking my heart

We made a promise till forever
That we would never, ever part

I love you so
More than you know
How could our love melt like the snow?

So while the guitar strums a memory
I'll think of words you've said to me

Adios amigo
Hasta la vista
Goodbye, my love, we'll meet someday

Adios amigo
Until tomorrow
We both must go our separate ways

Adios amigo
Hasta la vista
Display this side of me for you will all it's worth

Adios amigo
Until tomorrow
If love is true, then we'll return

I gave you all the love inside me
Now, there is nothing that remains

So like the fish that swim the deep sea
The need for you runs through my veins

I love you so
More than you know

How could our love melt like the snow?
So while the guitar strums a memory
I'll think of words you've said to me

Adios amigo
Hasta la vista
Goodbye, my love, we'll meet someday

Adios amigo
Until tomorrow
We both must go our separate ways

Adios amigo
Hasta la vista
Display this side of me for you will all it's worth

Adios amigo
Until tomorrow
If love is true, then we'll return

Adios amigo
Hasta la vista
Goodbye, my love, we'll meet someday

Adios amigo
Until tomorrow
We both must go our separate ways

Adios amigo
Hasta la vista
