The TV is turned down the kids are in bed
And thoughts of you darling spin around in my head
Bobby still loves you and as he walks by
He says where's mommy and I started to cry
Darling come home darling come home

Susie still needs you what can I say
I am just not enough she needs a woman's ways
I started a letter but something went wrong
I picked up a thought of mine and I sang out this song

I hope that you hear it and come back to us
You were the one we love and the one we could trust
Darling come home darling come home
