I'm hurt to think that you lied to me

Hurt way down deep inside of me

You said you loved me and we'd never part

Now you found someone new and it breaks my heart.

Hurt much more than you'll ever know

Hurt because I still love you so

Even though you've hurt me like no one else can do

I could never know never hurt you.

--- Instrumental ---

Even though you've hurt me like no one else can do

I could never know never hurt you...
