(If you see my heart today)

If you see my heart at all today
There is somethin' you can do for me
For, you see, my heart is gone astray
It won't listen to my warning plea

If you see it won't you tell it please
That she'd only bring us misery
For an old friend, while you're on your way
If you see my heart today

Don't leave me here alone
To tell my heart that she's no good for me
That another claims her for his own
That our love could never be

If you see my heart at all today
Even though it's gonna make me blue
Just remind it that a thief must pay
If you see my heart today

Don't leave me here alone
To tell my heart that she's no good for me
That another claims her for his own
That our love could never be

If you see my heart at all today
Even though it's gonna make me blue
Just remind it that a thief must pay
If you see my heart today
