Gee, it's good to see your face
It's been lonely out there
To get away from the race
With someone who cares
If you been cryin' again
You're lonely too
Every place that I've been
I've been all alone, just like you

I've been savin' it up, not livin' it up
Never been
Whenever I look for love
I do it here
Don't let your imagination
Go running wild, I'm not some fool
Don't worry, baby
I'm saving all the good times for you

Next time I walk out that door
Be good to yourself
I'll be back just like before
There's nobody else
Put away your silly doubts
You are my love
You know me inside out
You're the only one I'll be dreamin' of

I've been savin' it up, not livin' it up
Never been
Whenever I look for love
I do it here
Don't let your imagination
Go running wild, I'm not some fool
Don't worry, baby
I'm saving all the good times for you
