The days of my youth I remember so well we lived in a
world on our own
Nobody cared where my money came from if I had it I
wasn't alone
Oh the wine flowed freely and friendship was mine how
they all loved me back then
But here in my prison I'm sitting alone and now where
are all of my friends

So drink and be marry if that is your wish your soul's to
the Lord I commend
Remember someday you may be as I am with nothing
not even a friend
Oh the wine flowed freely...

So here's to the freedom I never will have for me it's
not long till the end
But it's better to die than to spend forty years with the
cold prison walls for a friend
Oh the wine flowed freely...
