

Marty Robbins **"You Gotta Climb"**

Visit "[You Gotta Climb](#)" on MotoLyrics.com

You gotta climb to scale the mountain
You gotta climb to reach the top
You gotta climb to see the splendor
You gotta climb, climb, climb, don't you stop

Well, the path is steep, it leads upward
The way is rough, narrow too
But every step brings you higher
Until the mountain people come in view

You gotta climb to scale the mountain
You gotta climb to reach the top
You gotta climb to see the splendor
You gotta climb, climb, climb, don't you stop

Don't you give up 'cause you're weary
You can't expect an easy way
Downward path leads to nowhere
You gotta climb, climb, climb everyday

You gotta climb to scale the mountain
You gotta climb to reach the top
You gotta climb to see the splendor
You gotta climb, climb, climb, don't you stop

When you're right on top of your mountain
You'll be glad that you struggled on
A few of all you got around you
The struggle of the climb, all gone

You gotta climb to scale the mountain
You gotta climb to reach the top
You gotta climb to see the splendor
You gotta climb, climb, climb, don't you stop
